METALLI-GA ROCKED THE HOUSE!!!

Amongst the political speeches, the 'who's wearing what' on the red carpet, Adele giving away her Grammy to Bey, the most talked about performance of the night was Metallica and Lady Gaga! What a combo indeed, and even through the technical issues, they rose above and rocked 'Moth into Flame' and set the Grammys on fire! Check out Lady Gaga's amazing Metallica crop, awesome!

I LOVE ROCK N ROLL! JOAN JETT & THE BLACKHEARTS

Joan Jett, the frontwoman for The Runaways, blasted the rock scene that was heavily dominated by men back in the 70s. Her timeless hits include, 'I Love Rock n Roll' and 'Cherry Bomb' and has produced Riot Grrrl acts Bikini Kill and L7. Her early career was portrayed in the recent Biopic 'The Runaways' starting Kristen Stewart. Joan Jett will be touring in the US this month and will continue with dates running into May.

Our Joan Jett style guides are so on trend - **slogan tees** and **vintage cool**, these will be a wardrobe must have this year!

CATWALK TREND ALERT: LUXURY & STREETWEAR

It seems as though there's a new marriage in town. Luxe and Streetwear have fallen in love, like opposites attract! We've been keeping our beady eye on the catwalk collections for SS17 and AW17 and have enjoyed seeing luxury brands embrace the power of the t-shirt and casual wear.

The Vetements AW17 catwalk show was particularly inspiring as it embraced a real rock n' roll theme, punk style! Changing the way we see true fashion and the actual people who wear it on the streets.

We love the fact that the t-shirt is a universal staple and, like rock n roll, it's never going away! That's why we're proud of our amazing artwork on our band tees and how their styles and shapes are so versatile and well, fashionable! Get inspired, get the looks. Love your tee!
